# CPCS Compact Crane (A66) Training Booking Form

## Notes

- 1). As of 1<sup>st</sup> August 2008 the CPCS has changed and the training and testing will be carried out separately.  
The duration of the training is subject to the trainees prior experience (evidence should be supplied in advance).  
The Theory Test takes approx 1hr 15mins and the Practical Test approx 2hrs.
- 2). Trainees will need to take a CITB health and safety touch screen test prior to the training course.  
Current cost: £17.50. To do this either call 0870 600 4020 or book on line on [www.citb-constructionskills.co.uk](http://www.citb-constructionskills.co.uk)
- 3). Duration /ratios are in accordance with the CPCS recommendations below:

## DURATION / RATIOS

*To allow effective learning, these training times are recommended for this category. Candidates must be profiled to establish learning needs. Durations should be of a length to ensure the learning outcomes are met.*

Experience	Accumulated Hours
• Novice operators with no industry or machine experience	35
• Novice operators with industry experience but no machine experience	21
• Operators with unrelated (lifting) machine experience	14
• Operators with similar (lifting) machine experience	7

All candidates must have received the equivalent to 7 hours of site safety and induction training

*To allow effective learning, the listed candidate / machine / instructor ratio is the maximum recommended for this category*

- 3 candidates : 1 machine : 1 instructor
